### **Problems and Concerns:**

- Inmate Suicide and Deaths
- Jail Staffing
- Armor Healthcare

### **Recommendations:**

Place Armor Medical office on 4<sup>th</sup> Floor Pod D cell 11. This will give the inmates more contact with health care professionals. Can be monitored more effectively.

Volunteer Chaplains would visit inmates housed on 4D and 10D. This would also give inmates more contact within the first 48 hours.

New Cadet Officer training from 3 weeks to 6 weeks. This additional training will help retain officers. Reiterate to existing staff the importance of proper sight checks and the importance of communicating with supervisors about inmates at risk.
